

# Class of 2022 Enrollment Information

## Important Dates:

**Oct 29<sup>th</sup>** – Class visits during FSP

**Nov 12<sup>th</sup>** – Parent Meeting 6pm Cafeteria

**Finals Week**– Students will make course selections online during FSP period. They will need to have their enrollment form with them to do this. Also, students should have already activated their StudentVue account and know their username and password.

## Things to Consider:

- English, Math, and Science courses will be pre-selected for your student. If you disagree with the selection, please first talk to your student's teacher.
- Ensure your student has signed up for the equivalent of 7 year-long classes (including the pre-selected courses). Two semester-long classes equal 1 year-long class. Semester electives are on the front and year-long electives are on the back of the enrollment form
- Student athletes must pass 5 "solids" to be eligible to participate in sports. Study Hall does not count!
- Students in T level math must take ICP (289B/290B) as a soph.
- Students with a D in a course should carefully consider progressing within that course sequence. An F almost always eliminates the ability to take additional courses in that sequence
- Students who fail sem 1 of Eng 9, Bio, or PE will be placed in those courses again and schedule selections may need to be adjusted during 2<sup>nd</sup> sem
- Foreign language is not required to graduate or to earn a Core 40 diploma. Academic Honors track students must take 3 years of the same language or 2 years of 2 different languages
- Be mindful of the courses that require signatures (as indicated on the enrollment form). If you desire for your child to jump a level in math, please discuss this with his/her teacher FIRST and have the teacher confirm that decision with your student's counselor
- Be watching/listening for announcements regarding summer school. Classes fill quickly; therefore, it's important to sign up early
- Family and Consumer Science courses may be substituted for Health. Please refer to the curriculum sheet for more details. Only courses with a "#" symbol will count towards credits to replace health requirement

Please take the time to sit with your student and talk about their sophomore schedule. Establishing short term and long term goals is important when making course selections. Parents, please bring their enrollment folder with you to the Parent Meeting on November 12th.
